Panel Radiators

Vastly Superior to Fin-Tube Convection...

- Panel radiators provide both convective and radiant heat enhancing total comfort
- Faster heat-up rate with built-in valve for smarter control (heads sold separately)
- Efficient and energy saving for your customers
- Optimal use of low temperature radiators outperforms high temperature fin-tube
- Perfect solution for low temperature systems using condensing boilers, heat pumps and solar systems
- Decorative style with finished top grille and side covers
- Higher BTUH output than fin-tube convectors
- Outperforms the most powerful heat emitters

COMPACT CV 22

RAMO RCV 22

Radiator comes packaged with:

- RAL9016 white
- adjustable wall brackets
- one (1) air vent
- built-in thermostatic valve (heads sold separately)
- two (2) blind plugs
- side connections
- dual bottom connections

Panel Radiators

CV 22 Double Panel 16" High (400mm)

Model	Length	BTUH Outputs			
		180	160	140	120
CV22 400-600	24"	3,363	2,590	1,884	1,211
CV22 400-800	32"	4,484	3,453	2,511	1,614
CV22 400-1000	40"	5,506	4,317	3,140	1,982

Panel Baseboard

A Better Option than Fin-Tube...

- Panel baseboards provide both convective and radiant heat enhancing total comfort
- Faster heat-up rate with built-in valve for smarter control (heads sold separately)
- Efficient and energy saving for your customers
- Optimal use of low temperature radiators outperforms high temperature fin-tube
- Perfect solution for low temperature systems using condensing boilers, heat pumps and solar systems
- Decorative style with finished top grille and side covers
- Higher BTUH output than fin-tube baseboard
- Outperforms the most powerful heat emitters

COMPACT CV 21S / 22

RAMO RCV 21S / 22

Baseboard comes packaged with:

- RAL9016 white
- adjustable wall brackets
- one (1) air vent
- built-in thermostatic valve (heads sold separately)
- two (2) blind plugs
- side connections
- dual bottom connections

Panel Baseboard

CV 21S Single Panel 8" High (200mm)

Model	Length	BTUH Outputs
